www.baillot.dev

Full-stack developer, from product to infrastructure: at La Poste / Colissimo (Java, Angular) by day, and solo founder of four live SaaS products designed, built and operated end-to-end (Next.js, PostgreSQL, LLM integrations). Unusual path: ten years in the French Foreign Legion, School 42, then product engineering.

EXPERIENCE

2025 – now	Full-stack developer La Poste / Colissimo Java · Spring Boot · Angular · Oracle – E-invoicing compliance for internal flows: business rules, document generation, shipment tracking. – Evolution and maintenance of internal applications in production: dashboards, supervision, parcel management. – Progressive migration of legacy modules, integration tests, multi-environment CI/CD.
2025 – now	Solo founder & developer — SaaS products DesignPilot · Rat List · Teste Nacionalidade · Oformi Next.js · React · TypeScript · Supabase · PostgreSQL · Stripe · LLM – Four live products designed, built and operated solo: interior-design studio management, gift lists, Portuguese citizenship exam prep, French administrative procedures. – AI in production: LLM agents (emails and voice notes → tasks), assisted search, automated content pipelines with human validation. – Full infrastructure: Stripe payments, Redis queues and workers, Docker / VPS and Vercel deployments. – Also: SEO-focused client showcase site (mariako.fr).
2020 – 2025	Developer & systems administrator (CORSIC) French Foreign Legion — IT department PHP → React · Docker · Linux · Grafana – Rebuilt an internal logistics management app (PHP → React + REST API): –40% user errors. – Fleet of 300+ workstations: average ticket resolution time cut from 2 days to 4 hours. – Cybersecurity awareness for 400+ users; Docker CI/CD pipeline (–60% on updates); Grafana / Prometheus monitoring.
2015 – 2020	Operational unit French Foreign Legion – Five years in a combat unit — discipline, decision-making under pressure, teamwork.

SKILLS

FRONT	TypeScript · React / Next.js · Angular · SCSS
BACK	Java / Spring Boot · Node.js · PostgreSQL / Oracle · Redis
INFRA	Docker · CI/CD (GitHub Actions) · Linux / VPS · Vercel
AI	LLM integration · Agents & automation · Content pipelines
